STREETS, EASEMENTS AND UTILITIES

A. Public Streets and General Utility Easements:

The Owner/Developer does hereby dedicate for public use the streets, as designated on the accompanying plat, and does further dedicate for public use the utility easements as depicted on the accompanying plat as "U/E" or "UTILITY EASEMENT", for the several purposes of constructing, maintaining, operating, repairing, replacing, and/or removing any and all public utilities, including storm sewers, sanitary sewers, telephone and communication lines, electric power lines and transformers, gas lines, water lines and cable television lines, together with all fittings, including the poles, wires, conduits, pipes, valves, meters and equipment for each of such facilities and any other appurtenances thereto, with the rights of ingress and egress to and upon the utility easements and right-of-ways for the uses and purposes aforesaid, provided however, the Owner/Developer hereby reserves the right to construct, maintain, operate, lay and re-lay water lines and sewer lines, together with the right of ingress and egress for such construction, maintenance, operation, laying and relaying over, across and along all of the utility easements depicted on the plat, for the purpose of furnishing water and/or sewer services to the area included in the plat. The Owner/Developer herein imposes a restrictive covenant, which covenant shall be binding on each lot owner and shall be enforceable by the City of Jenks, Oklahoma, and by the supplier of any affected utility service, that within the utility easements depicted on the accompanying plat no building, structure or other above or below ground obstruction shall be placed, erected, installed or maintained, provided however, nothing herein shall be deemed to prohibit drives, parking areas, curbing and landscaping.

B. Underground Service:

1. Overhead lines for the supply of electric, telephone and cable television services may be located along the North property line of the subdivision. Street light poles or standards shall be served by underground cable and elsewhere throughout the subdivision all supply lines shall be located underground in the streets and easement ways dedicated for general utility services as depicted on the accompanying plat. Service pedestals and transformers, as sources of supply at secondary voltages, may also be located in easement ways.

2. Underground service cables and gas lines to all structures which may be located within the subdivision may be run from the nearest service pedestal or transformer or gas main to the point of usage determined by the location and construction of such structure as may be located upon the lot, provided that upon the installation of a service cable or gas line to a particular structure, the supplier of service shall thereafter be deemed to have a definitive, permanent and effective easement on the lot, covering a 5 foot strip extending 2.5 feet on each side of the service cable or gas line, extending from the service pedestal, transformer or gas main to the service entrance on the structure.

3. The supplier of gas, electric, telephone and cable television services, through its agents and employees, shall at all times have the right of access to all easement ways shown on the plat or otherwise provided for in this Deed of Dedication for the purpose of installing, maintaining, removing or replacing any portion of the underground gas, electric, telephone or cable television facilities installed by the supplier of the utility service.

4. The owner of the lot shall be responsible for the protection of the underground service facilities located on his lot and shall prevent the alteration of grade or any construction activity which would interfere with the gas, electric, telephone or cable television facilities. The supplier of service shall be responsible for ordinary maintenance of underground facilities, but the owner shall pay for damage or relocation of such facilities caused or necessitated by acts of the owner or his agents or contractors.

5. The foregoing covenants set forth in this paragraph B shall be enforceable by the supplier of the gas, electric, telephone or cable television service and the owner of the lot agrees to be bound hereby.

C. Water and Sewer Service:

1. The owner of the lot shall be responsible for the protection of the public water and sewer mains located on his lot.

2. Within the utility easement areas depicted on the accompanying plat, the alteration of grade in excess of 3 feet from the contours existing upon the completion of the installation of a public water main or sewer main, or any construction activity which would interfere with public water and sewer mains, shall be prohibited.

3. The City of Jenks, Oklahoma, or its successors, shall be responsible for ordinary maintenance of public water and sewer mains, but the owner shall pay for damage or relocation of such facilities caused or necessitated by acts of the owner, his agents or contractors.

4. The City of Jenks, Oklahoma, or its successors, shall at all times have right of access to all easement ways depicted on the accompanying plat, or otherwise provided for in this Deed of Dedication, for the purpose of installing, maintaining, removing or replacing any portion of underground water or sewer facilities.

5. The foregoing covenants set forth in this paragraph C shall be enforceable by the City of Jenks, Oklahoma, or its successors, and the owner of the lot agrees to be bound hereby.

D. Reserve Areas:

Reserves "A", "B", "C", "D", "E", "F", "G" and "H" shall be operated and maintained by the Owner/Developer until such time as the same are conveyed to the homeowners' association to be formed as set forth in Section IV. From and after the date of such conveyance, the homeowners association shall be responsible for the maintenance of the same and pay for all costs and expenses associated therewith. In the event such areas are not properly maintained, the City of Jenks or its contractors may enter upon said property, perform the maintenance and bill the Owner/Developer or homeowners' association, whoever is the then owner of such property, for the same. Such cost of maintenance shall become a lien on all the Residential Lots (as hereinafter defined), which may be foreclosed by the City of Jenks, Oklahoma; or the City of Jenks or the Jenks Public Works Authority may add such billing prorate upon the Residential Lot owner's water bill, whichever method of collection is agreed to by all Residential Lot owners.

E. Overland Drainage Easements:

1. For the common use and benefit of the owners of lots within the subdivision and for the benefit of the City of Jenks, Oklahoma, the Owner/Developer hereby dedicates to the public, and herein establishes and grants perpetual easements on, over and across those areas designated on the accompanying plat as "O.D.E." or "Overland Drainage Easement" for the purposes of permitting the flow, conveyance, and discharge of storm water runoff from the various lots within the subdivision and from properties outside the subdivision.

2. Drainage facilities constructed in overland drainage easements shall be in accordance with the adopted standards of the City of Jenks, Oklahoma, and plans and specifications approved by the Department of Public Works of the City of Jenks, Oklahoma.

3. No fence, wall, building or other obstruction may be placed or maintained in the overland drainage easement areas nor shall there be any alteration of the grades or contours in the easement areas unless approved by the Department of Public Works of the City of Jenks, Oklahoma, provided, however, that the planting of turf or single trunk trees having a caliper of not less than two and one-half (2 1/2) inches shall not require the approval of the Department of Public Works of the City of Jenks, Oklahoma, and provided further, that fencing, walls and planting shall be permitted, with the approval of the Department of Public Woks of the City of Jenks, Oklahoma, across those portions of the overland drainage easements in which enclosed stormwater conduits have been constructed.

4. The overland drainage easement areas and facilities located thereon shall be maintained by the owner of the realty upon which the overland drainage easement is located at his cost in accordance with standards prescribed by the City of Jenks, Oklahoma. In the event the owner of realty over which an overland drainage easement is located should fail to properly maintain the easement area and facilities located thereon or, in the event of the placement of an obstruction within the easement area, or the alteration of the grade or contour therein, the City of Jenks, Oklahoma, or its designated contractor may enter the easement area and perform maintenance necessary to the achievement of the intended drainage functions and may remove any obstruction or correct any alteration of grade or contour, and the cost thereof shall be paid by the owner of the realty. In the event the owner fails to pay the cost of maintenance after completion of the maintenance and receipt of a statement of costs, the City of Jenks, Oklahoma, may file of record a copy of the statement of costs, and thereafter the costs shall be a lien against the realty of the owner, which lien may be foreclosed by the City of Jenks, Oklahoma.

F. Surface Drainage:

Each lot shall receive and drain, in an unobstructed manner, the storm and surface waters from lots and drainage areas of higher elevation and from public streets and easements. No lot owner shall construct or permit to be constructed any fencing or other obstructions which would impair the drainage of storm and surface waters over and across his lot. The foregoing covenants set forth in this paragraph E shall be enforceable by any affected lot owner and by the City of Jenks, Oklahoma.

G. Limits Of No Access:

The undersigned Owner/Developer hereby relinquishes rights of vehicular ingress or egress from any portion of the property adjacent to East 121st Street South within the bounds designated as "Limits Of No Access" (L.N.A.) on the accompanying plat, which "Limits Of No Access" may be amended or released by the Jenks Planning Commission, or its successor, and with the approval of the City of Jenks, Oklahoma, or as otherwise provided by the statutes and laws of the State of Oklahoma pertaining thereto, and the limits of no access above established shall be enforceable by the City of Jenks, Oklahoma.

H. Paving and Landscaping Within Easements:

The owner of the lot affected shall be responsible for the repair of damage to landscaping and paving occasioned by necessary installation or maintenance of underground water, sewer, storm sewer, natural gas, communication, cable television or electric facilities within the restricted water line, sewer line or utility easement areas depicted upon the accompanying plat, provided however, the City of Jenks, Oklahoma or the supplier of the utility service shall use reasonable care in the performance of such activities.

THEREFORE, the Developer does hereby impose the following additional restrictions and covenants on the Residential Development Area, which shall be covenants running with the land and shall be binding upon the Developer, its successors and assigns:

A. Architectural Committee - Plan Review:

1. No building, fence or wall shall be erected, placed or altered on any Residential Lot in this subdivision until the building plans and specifications and plot plan, which plot plan shows the location and facing of such building, have been approved in writing by a majority of an architectural committee composed of the members of the Wakefield Development Company, L.L.C., or their duly authorized representative, representatives or successors. In the event the Architectural Committee fails to approve or disapprove any such plans, specifications and plot plans submitted to it as herein required within thirty (30) days after such submission, or in the event no suit to enjoin the erection of such building or the making of such alteration has been commenced prior to the completion thereof, such approval shall not be required and this covenant shall be deemed to have been fully complied with.

2. The Architectural Committee's purpose is to promote good design and compatibility within the subdivision and in its review of plans or determination of any waiver as hereinafter authorized may take into

The Architectural Committee shall not be liable for any approval, disapproval or failure to approve hereunder, and its approval of building plans shall not constitute a warranty or responsibility for building methods, materials, procedures, structural design, grading or drainage, or code violations. The approval, disapproval or failure to approve of any building plans shall not be deemed a waiver of any restriction, unless the Architectural Committee is hereinafter authorized to grant the particular waiver.

3. The powers and duties of the Committee or its designated representative shall cease on the 1st day of January, 2007, or when ninety percent (90%) of the lots have been closed, whichever occurs first. Thereafter, the powers and duties of the Architectural Committee shall be exercised by the home owners' association hereafter provided for.

The first story exterior walls of the dwelling erected on any Residential Lots shall be of at least fifty percent (50%) brick, stone or stucco, provided, however, that the area of all windows and doors located in said exterior walls and the area adjacent to patios and under porches shall be excluded in the determination of the area of exterior walls, and further provided that where a part of the exterior wall is extended above the interior room ceiling line due to the constructions of a gable-type roof, then that portion of the wall extending above the interior room ceiling height may be constructed of wood material and shall be excluded from the determination of the area of the exterior walls. (Exclusive of fireplace chase.)

4. Windows:

All dwellings with windows other than wood will be either anodized or electrostatically painted. Metal window frames will be in color harmony with the exterior color and texture of the residence.
